The PPA cum PMC who score maximum marks put together for technical bid and price bid shall be considered for selection, after techno-commercial evaluation based on 70% weightage to Technical Parameters and 30% for financial Bid.

Evaluation of proposals / bids:

- a. The total of Part A and Part B of technical parameters shall be considered for Technical Marking.
- b. The date and time of opening of Price Bids will be communicated to technically qualified Bidders only. The price bids will be opened by the Bank's Committee in the presence of representatives of the qualified Bidders who choose to attend the same who is authorised by the bidder along with his KYC document.
- c. The Bidder with the highest Bid score will be selected as per following methodology:
 - Once the price Bid is opened, final evaluation will be carried out with 70% weightage for the technical evaluation and 30% weightage for the price Bid.
 - Quoted Fee as per price bid (as indicated in the Annexure M) shall be considered for Final Evaluation along with technical criteria in the ratio of 30:70 (Price Bid 30% weightage and Technical Bid 70% weightage).
 - The formula used for weightage will be as follows:

$$\text{Technical Score} = \frac{\text{Bidder Technical Score}}{\text{Max (Bidder Technical Score 1...n)}} \times 70$$

$$\text{Price Score} = \frac{\text{Min (Bidder Price 1...n)}}{\text{Bidder's Price}} \times 30$$

$$\text{Bidder's Final score} = \text{Technical score} + \text{Price score}$$

Example:

- Suppose three applicants are shortlisted as A, B, & C based on technical bid scrutiny (Part A + Part B) and they secured marks out of 150 as under:
 - A – 133 marks;
 - B – 127 marks;
 - C – 115 marks
- As 'A' secured highest marks in technical evaluation, to work out percentile score, following will be the calculation:
 - A : $(133/133) \times 100 = 100$
 - B : $(127/133) \times 100 = 95.50$
 - C : $(115/133) \times 100 = 86.50$
- Now that technical bids are evaluated, financial bids can be opened.

- Financial quotes for three bidders are as follows:

- A:3.00%
- B :2.50%
- C :2.10%

- As 'C' has quoted lowest price, to work out percentile score, following will be the calculation:

- C :(2.10/2.10) X 100=100
- B : (2.10/2.50)X100=84
- A : (2.10/3.00)X100=70

- Since proportion of technical to financial score is specified to be 70:30, then final scores will work out as follows:

- A :(100X0.70) +(70X0.30) =91.00
- B :(95.50X 0.70) +(84X 0.30) =92.05
- C :(86.50X 0.70)+(100X 0.30) =90.55

From the above, the most successful applicant would be the one with highest percentile score i.e. 'B'.

We have read and understood the above mentioned prequalification criteria and evaluation of proposals/bids and shall abide by the same.
