	CIVIL WORKS				
1	DISMANTLING				
	Note:- The rate for all demolishing and dismantling to include carting and disposing of the debris outside the site				
	at Municipal Dumping grounds.				
	Necessary propping, shoring and underpinning shall be provided for the safety of the adjoining work or property, which is to be left in tact, before dismantling and demolishing is taken up and the work shall be				
	carried out in such a way that no damage is caused to the adjoining work or property.				
	DICHANTI INC WORK Disparation of bright well of all this large is a section including placed				
1.1	DISMANTLING WORK:- Dismantling of brick wall of all thickness in cement mortar, including glazed tiles, cement plaster, door lintels, ducts and disposal of unserviceable material as directed. Dismantling				
	of existing door/ window frames and shutters, fixed glazing and stacking of serviceable material and				
	disposal of unserviceable material to nearest municipal dumping ground. Dismantling of existing false				
	the closest dumping ground. Dismantling of existing partitions with doors in wood/ gypsum including				
	removing base support frame in GI/ Wood etc. complete with glass and disposal of unserviceable				
	material to the closest dumping ground. Dismantling and Removal of existing electrical installations, wiring, switches, sockets, conduits, light fixtures, stabilizers etc. complete in all respects and making site				
	ready for new interior installations. The item includes disposal of unserviceable material to the closest				
	dumping ground. Dismantling and Removal of existing AC units (indoor & outdoor) including the removal	1.00	job		
	of the copper piping, drain pipe, interconnecting cables etc. complete in all respects and making site ready for new interior installations. The item includes disposal of unserviceable material to the closest				
	dumping ground. Dismantling of filled up area/ raised floors/ concrete filling, PCC, Foam concrete etc.				
	from the existing floor, toilets, paltry etc. complete in all respects and preparation of the surface to take				
	new flooring The cost to include the disposal of debris to the nearest municipal grounds. Dismantling and Removal of existing Tables, low & full Ht. Storages, Side racks, pin up boards, Wall paneling complete				
	in all respects and making site ready for new interior installations. The item includes disposal of				
	unserviceable material to the closest dumping ground. Before taking any material to the out of the branch prior approval form the branch manager or Architect/ Engineer in charge is needed.				
	phot approval form the branch manager of Architect/ Engineer in charge is needed.				
1.2	MAKING CUT OUT IN MASONRY WALL (for Ventilator 2'-0" X 2'-0') :- Making openings in walls for				
	ventilator windows, AC ducting etc. without damaging the surroundings and making good the affected areas with smooth plaster in mix proportion 1:4 finished in paint, inclusive of lintel support in Cuddapah				
	stone of thickness 25mm to be provided where ever required. Cost to be inclusive of filling the excess	1.00	Nos.		
	opening with brick bats and finishing the same in smooth plaster in cement mortar 1:4, proper curing,				
	aiving supports to walls etc. complete				
-	MACONDY AND DI ACTED				
2	MASONRY AND PLASTER				
2.1	Earth Work Excavation :- Excavation in all types and sizes of foundations, trenches and drains or for				
		12.00	CUM		
	Earth Work Excavation: Excavation in all types and sizes of foundations, trenches and drains or for any other purpose with all lead and lift including seperation of usefull soil for refilling and stacking & levelling of same, and disposal of surplus excavated stuff and spoils to the nearest dumping ground or as directed by Engineer Incharge including souring, dewatering, surface dressing, etc, complete as per	12.00	СПМ		
	Earth Work Excavation: Excavation in all types and sizes of foundations, trenches and drains or for any other purpose with all lead and lift including seperation of usefull soil for refilling and stacking & levelling of same, and disposal of surplus excavated stuff and spoils to the nearest dumping ground or as directed by Engineer Incharge including souring, dewatering, surface dressing, etc, complete as per direction of Engineer In-charge	12.00	CUM
