Tel : 98225 70140 / 712 224 9627 / 224 8409     E-Mail : vbranade@yahoo.com
NOTE:

1. Each body block should be as per the drawing & site conditions and each unit should have minimum 6 loading levels formed by 5 numbers of adjustable shelves. The storage body units are bolted to the undercarriage.

2. The shelf panel of storage unit should be made of 0.8mm thick CRCA steel confirming to IS: 513 - 2008 grade to take the maximum load bearing capacity of 70 to 90 Kg uniformly distributed per shelf. 1mm thick base. The shelves should be mounted on support brackets & its level should be adjustable. There should be 5 adjustable shelves per body giving 6 loading levels.

3. The under carriage should be made with HR sheet 2.5mm thick confirming to IS 10748 - 2004 suitably fabricated using welding to take the loads. The Mobile Storage Unit should be running on a guide Rail track of size 28 mm M.S. round with necessary bracing/channel and base plate. Cost of rails to be included in the item rate.

4. The bodies including shelves and undercarriages should be given minimum 7 tank anti-rust surface treatments and finished with powder coating using epoxy polyester powder of 40microns.

5. A centralized or independent locking arrangement should be provided through the locking stiffener mounted on to back of single last unit so that it gets locked on channels when all the units are brought together.

6. All the units should be provided with soft pad handles. All the MSU should be provided with the features such as mechanical drive with a handle for mechanically assisted drive mechanism consisting of a series of sprocket and chain mechanism for smooth movement of the compactor with minimum effort.

7. It should be fitted with safety guard, which is to be engaged when entering the common aisle. This should prevent from operating system when an individual is in the working aisle. The guide track should be provided with an end stopper to avoid derailment of the units. It should be provided with the label holders. Variation +10 mm will be permissible. The rates should include provision of soft stearing handles and locking wherever required.

8. Evidence, in the form of firm purchase order or work completion certificate, for supplying similar compactors of special dimensions is a mandatory requirement.

9. Conditional Tenders are liable to be rejected. **No change** in the design & construction of the compactors shall be allowed and such tenders will be summarily disqualified.
