			ESTIMA	TED COST
 Description of Item	Qty	Unit	Rate	Amount
 Part A : Interior Works :				
Mode of Measurements : Area of exposed and finished surfaces will be measured.				
 _				
False Ceilings :				
Note : i) Rate to be included for all kinds of profiles and cut outs required for light fixtures,				
Speakers, Smoke detector, trap doors and AC grill in the ceiling. Provision for light				
fittings, AC grills and diffusers have to be made at no extra cost supported with tees,				
Angles, etc. suitably fixed all complete as per drawing and direction. The area of these				
cutouts which is less than 0.5 sqmt for one unit will not be deducted while measuring the ceiling area.				
 ii) The contractor must co-ordinate with electrical & AC contractor for working out				
various levels for the false ceiling & make the marking on the walls / columns before				
 starting the false ceiling work.				
 Gypsum Board False Ceiling :	(0)			
	60	Sqm		
Providing, making and fixing Gypsum Board False Ceiling straight or curve any profile of reputed make which includes G.I. Perimeter Channels of size 0.55mm thick (having				
One Flange of 20mm and another flange of 30mm and a web of 27mm) along with				
perimeter of ceiling, screw fixed to brick wall / partition with the help of Nylon sleeves				
and screws at 610mm centres. Then suspending G.I. intermediate channels of size 45mm				
(0.9mm thick with two flanges of 15mm each) from the soffit at 900mm centres with				
ceiling angle of width 25mm X 10mm X 0.55mm thick fixed to soffit with G.I. cleat and steel expansion fasteners. Ceiling section of 0.55mm thick having knurled web of				
51.5mm and two flanges of 26mm each with lips of 10.5mm are then fixed to the				
intermediate channel with the help of connecting clips and in direction perpendicular to				
the intermediate channel at 457 mm centres contd				
 contd 12.5mm tapered edge Gypboard (conforming to IS 2095-1982) is then screw				
fixed to ceiling section with 25mm dry wall screws at 230mm centres. Screw fixing is				
done mechanically with drilling machine with suitable attachment. Finally tapered edges				
of the Gypsum boards are to be jointed and finished so as to have a flush look which				
includes filling and finishing with jointing compound, joint paper/fibre tape and two				
coats of dry wall top coat suitable for Gypsum board etc. The desgin of the celing is as per the direction of the bank engineer complete as per the recommended practices /				
specifications of the manufacturer. Including two coats of primer suitable for gypsum				
board two or more coats of plastic emulsion paint of approved shade and also including				
making necessary openings for light fittings, grills, diffusers, cutouts made with frame of				
perimeter channels suitable fixed all complete as per drawing and specification and direction. Data to be inclusive of abadement file at the investige of small & aciliant in				
direction. Rate to be inclusive of shadow profile at the junction of wall & ceiling, in between of ceiling, etc. complete.				
¢′ 1				
Cove in ceiling :	120	Rmt		
Same as above but providing, making and fixing Gypsum cove (inside height 150 - 200 mm and border 75 mm) to hide strip/cove light in ceiling or to act as pelmet for roller				
blinds on windows or for projector screen, etc.				
Mineral Fibre Grid Tile Ceiling :	90	Sqm		
Mineral Fibre Acoustic Ceiling Tiles : Providing, making & Fixing at all heights & in				
spirit level, Acoustical Ceiling System @ Office areas with Armstrong, Gyproc or equivalent make mineral fibre acoustical suspended ceiling system as per Manufacturer's				
specification with pin-hole tiles, tegular edge with 24 mm exposed grid. The tiles should				
have Colour White, in module size of 600mm x 600mm x 15mm. with providing and				
fixing Hot dipped galvanised Steel suspension system Grid frame with butterfly clips, for				
laying of Acoustical Ceiling Tiles as per manufacturer's specifications contd				
contd The grid should be laid on Armstrong/Gyproc or equivalent stitched True lock				
24 TL exposed grid systems with 24 mm wide T-section flanges color white, the tile will				
24 TL exposed grid systems with 24 mm wide T-section flanges color white, the tile will be laid on frame work made of Armstrong Prelude 32 with 24 mm wide T - section				
24 TL exposed grid systems with 24 mm wide T-section flanges color white, the tile will				
24 TL exposed grid systems with 24 mm wide T-section flanges color white, the tile will be laid on frame work made of Armstrong Prelude 32 with 24 mm wide T - section flanges or of equivalent make, colour white having rotary stitching on all T sections i.e.				

INTERIOR AND FURNISHING WORKS FOR FINGESHWAR BRANCH UNDER RBO KANKER

2	Partitions :			
	Rate to be included of all kinds of planes/levels, profiles and cut outs, etc. required for			
	light fixtures, trap doors and ACs, boards, provision for light fittings and diffusers have to			
	be made at no extra cost supported with metallic section etc. suitably fixed all complete			
	as per drawing and direction.			
	ii) The contractor must co-ordinate with electrical & AC Works for cabling, AC pipe			
	works, etc.			
2.1	Full Height Partly Glazed Partly Wooden Double Skin Plywood Partitions :	21	Sqm	
	Providing and fixing full height partly wooden, partly glazed double skin partition with		- 1	
	following specifications (Measurement shall be taken up to finished partition level & not			
	of frame work and sal wood member shall go up to slab/beam soffit).			
	Providing and fixing full height partly glazed double skin partitions made out of Frame			
	work to be 50mm X 50mm X 1.60 mm thick aluminum section weight not less than 0.836			
	kg/rmt with maximum distance of 450mm c/c both ways(Horizontal/Vertical) or as			
	directed, firmly fixed to floor or slab with 65 to 75 mm long screw or as directed by the			
	Bank's Engineer as per site conditions with necessary grooves and cuts etc. including anti-			
	termite treatment to all wooden members wherever used. The			
	partition to be sandwiched with 8 mm HDF Board / MR plywood from both the sides			
	and finished with 1.0mm thick approved shades of laminated finish & match the panelling pattern. including 6mm MDF groving Additional wooden members to be			
	provided wherever door is to be provided. Wood shall be treated with antitermite			
	chemicals. The cost shall include all labor, materials, strictly as per the given design &			
	drawing etc. in complete.			
	The partition will be provided with 5 mm thick float glass fixed at 900 -1200 mm above			
	the floor level with teak wood beading fixed on both sides of the glass finished with			
	polishing as directed. The float glass to be etched as per approved design (film etching			
	not to be paid separately). The beading for fixing glass to be fixed on both sides of the			
	partition in such a way that it would be projected from the partition. (8 mm & 12 mm			
	glass opening wherever applied shall neither be included in measurement nor costing and			
	shall be considered as separate item).			
	The top panel (above glass panel) and side panels shall be provided with HDF Board /			
	MR plywood double skin partition as per specification of a) & b) upto ceiling/top support			
	cost including 6mm MDF board groving desing as per the direction of Banks engineer			
	Making provision for items like softboards, white boards, electrical points, switchboards, telephone/ electrical/ data cables, etc. as & where required			
	All finishes shall be done as per details and as per instructions of Bank's engineer. The			
	rate to include all materials, labour, transport, etc. complete.			
	Providing 75mm - 150 mm high skirting. MR ply fixed on both sides of the partition			
	finished with 1mm thick lamination of approved make and shade. All wooden			
	structures are to be painted with anti-termite/boarer paint as per manufacturer's			
2.2	Low Height partitions With / Without Glass :	20	Sqm	
	P/F 66 mm thick low ht. double skin glazed wooden partition approx. 1200 mm to			
	1450mm. High including glass, with following specifications:			
	Providing and fixing full height partly glazed double skin partitions made out of Frame work to be 50mm X 50mm X 1.60 mm thick aluminum section weight not less than 0.836			
	Providing and fixing full height partly glazed double skin partitions made out of Frame			
	Providing and fixing full height partly glazed double skin partitions made out of Frame work to be 50mm X 50mm X 1.60 mm thick aluminum section weight not less than 0.836 kg/rmt with maximum distance of 450mm c/c both ways(Horizontal/Vertical) or as directed, firmly fixed to floor or slab with 65 to 75 mm long screw or as directed by the

P & F 12 mm thick (approx) etched glass as per design and shape fixed with stainless steel glass fixing brackets/crews etc. of length varying from 750 to 1550 mm and height appx. 300 - 400 mm. etc. complete as directed.			

	Making provision for items like softboards, white boards, electrical points, switchboards,			
	telephone/ electrical/ data cables, etc. as & where required (but excluding the cost for			
	items).			
	All finishes shall be done as per details and as per instructions of Bank's engineer. The			
	rate to include all materials, labour, itching, transport etc complete.			
	Further the partitions should have provision for fixing/embedding of vertical toughened			
	glass partition and also toughened glass in vertical/horizontal position on SWO counter			
	top, which will be measured separately.			
	······································			
3	Panelling Works (Walls , Columns, etc):			
	Rate to be included of all kinds of levels/planes, profiles and cut outs required for			
	elevation and fixing of light fixtures, trap doors and ACs, provision for light fittings,			
	boards and diffusers have to be made at no extra cost supported metallic sections, etc.			
	suitably fixed all complete as per drawing and direction.			
	ii) The contractor must co-ordinate with electrical & AC contractor for cabling, AC pipe			
	works, etc.			
3.1	Wall Panelling :	66	Sqm	
	Providing, making and fixing single skin paneling (type I using 6 mm thick MR			
	plywood) on walls, front facia, boxing for rolling shutter, columns and/or glazing soffits			
	at various parts of the premises, upto 3 mt height and boxing of 0.10 mt. ht., as required,			
	made out of 25 x 25 x 1.0 mm thk weighing 0.467 kg/rmt aluminum frame, vertical and			
	horizontal sections placed at 450 mm c/c both ways or less as per site condition and			
	finished with 6 mm thick MR plywood shall be fixed over the frame (either in one plane			
	or at different levels) finished with 1mm thick decorative laminate of approved made and			
	shade (in one or multi colour) shall be fixed with proper adhesive as directed. Top of the			
	paneling edges / is to be provided with laminate or teak wood decorative beeding of			
	35mm x 20 mm finished with polish/painting as directed. Providing and fixing as per			
	the direction of engineering in charge if required groving with 6 mm Thick Plain MDF			
	(cost included)sheet in required design/pattern/ shape/size with 1 mm laminate over it of			
	Banks approved Brand			
3.3	Cabinet for Electric Panel :	4	Sqm	
5.5	Providing, making and placing in position cabinet with openable shutter around the	4	Sqiii	
	electric panel. Cabinet and shutter made of 18mm thk MR grade plywood. All visible			
	surfaces shall be laminated with 1 mm thick Laminate on external surfaces of approved			
	made and shades & painting the internal surfaces with 2 or more coats of synthetic			
	enamel paint, including providing teakwood lipping of size 20 x 6 mm on edges.			
	Horizontal slots (approx. 10 mm wide) to be cut in the shutter at top & bottom for			
	ventilation. Rate to include for necessary hardware fixture like providing with 3 nos. of			
	75mm long SS hinges for each shutter, two nos of 75 mm tower bolt (one top and			
	bottom), SS handles to shutters, magnetic catchers for each shutter and multipurpose			
	Godrej or ebco lock. (Measurement area = Measurement to be taken for the front			
	Godiej of ebeo lock. (Wedsurement drea Wedsurement to be taken for the front
